CONSUMPTION,
which is Scrofulous Disease of the Lungs, is properly and certainly arrested and cured by this God-given remedy, if taken before the last stages of the disease are reached. From its wonderful power over the scrofulous disease, when first offered the now celebrated Dr. J. C. Jackson, of New York, was thought seriously of calling it his "Consumption Cure," and the name of the late Dr. J. C. Jackson, of New York, is too limited for a medicine of such importance. Its powerful combination of tonic, or strengthening, and blood-cleansing, anti-phlogistic, and nutritive properties, is unequalled, and only such a remedy for consumption of the lungs, and for all

Mr. and Mrs. T. S. Glander of Green Oaks Vineyard will please accept our thanks for a large box of fine Tokay grapes.

Don't forget the entertainment to be given at Union Hall by the Young Ladies' Aid Society on the evening of December 9th.

City taxes became delinquent at 10 o'clock last Tuesday, at which hour about \$1100 had been paid in, leaving about \$80 delinquent.

Go to Mandl's Cash Store for bargains. It is the cheapest store in town. Go and see for yourself and you will never regret it.

The Ladies of Sonoma declare that it is astonishing how cheap goods are sold at Mandl's Cash Store.

They say dry goods can be purchased here cheaper than in San Francisco.

Thanksgiving day was observed in this city by union services in the Congregational church, the closing of the public schools, bank, business houses and postoffice, and the traditional turkey dinner.

Work on the Santa Rosa and Carquinez Railroad and also on the Donahue extension from Pacheco to Santa Rosa, is being rapidly pushed forward and both roads will no doubt be in operation by next March.

Capt. J. H. Drummond of Glen Ellen has been appointed by Governor Waterman a member of the District Board of Agriculture for the District No. 4, composed of the counties of Sonoma, Marin, Napa and Solano, vice self, term expired.

The Sonoma Improvement Company is the name of a new corporation which is being organized for the purpose of building roads, bridges and making other needed improvements in this city. The capital stock is to be \$100,000 divided into 10,000 shares of \$10 each.

The ball given by the Native Sons at Union Hall on Thanksgiving eve for the purpose of raising funds to purchase a banner was largely attended. We have not learned the amount realized, but trust it will be sufficient to enable our Native Sons to purchase a banner, without which no Parlor is complete.

The Young Ladies' Aid Society of the M. E. Church, recently organized in this place, will give a literary entertainment at Union Hall, Friday evening, December 9th. An excellent programme will be presented and the young ladies of the society will no doubt be greeted with a crowded house.

We inadvertently omitted to call the attention of our readers in last week's issue to the new ad of Badger's cash store at Agua Caliente. Mr. Badger keeps on hand a varied stock of general merchandise which he is selling cheap for cash. He also sells furniture on the installment plan at bed-rock prices. Give him a call and see the bargains to be had.

Geo. H. Maxwell of the Sonoma Valley Water Company has made arrangements with Dr. L. B. Lawrence whereby water for household purposes will be furnished by the company from the flowing springs on Terrace Hill, the private residence grounds of the Dr. This water for drinking purposes is the finest in the State and the supply is abundant. Water will also be taken from the Sonoma Creek by the company for gardens, flushing sewers, etc.

Clay Literary Society holds its regular meeting at Union Hall last Monday evening, a large number of members and their friends being present. After the usual business had been transacted and five new members added, the following excellent programme was presented:

Piano solo, Miss E. Pauli; vocal solo, Mrs. J. P. Wynn; vocal duet, Emma Powell and Celie Granice. The programme closed with the very amusing farce, entitled "Mistake," with the following cast: Dr. Bentley, Mr. C. Wynn; Mr. Popkins, Mr. Chas. Tarrant; Dora, Miss Etta Raschen; Miss Simpkins, Mrs. Granice. A social hop followed till midnight. The next meeting of this flourishing society will take place on Monday evening, December 5th. The programme committee for that evening are Mr. J. B. Small and Mr. Geo. Porter.

Clay Literary Society's Forthcoming Entertainment.

Clay Literary Society will give its sixth semi-annual entertainment and social hop at Union Hall on the evenings of December 29th and 30th. The first evening will be devoted to a miscellaneous programme consisting of drama, comedy and song. The second evening there will be a minstrel performance and a social hop. Gerardi's string band has been engaged for the latter evening and talent from the city will assist in the minstrel performance. The Literary Society very generously gave the proceeds of its last entertainment, amounting to \$150 or \$200, to the City Trustees for the purpose of improving the Plaza, and it would do so again this year were it not for the fact that its library needs replenishing. This being the case we trust every citizen of Sonoma Valley will aid this worthy society by purchasing tickets and attending its entertainments.

The Donahue Estate.

There was filed this week in the Recorder's office of San Francisco a joint deed by Mrs. Annie Donahue, widow of the late Peter Donahue, Mrs. Mary Ellen Von Schroeder and James Merryn Donahue, the daughter and son of the dead millionaire. This instrument vests in each of them an undivided one-third interest in the Donahue estate. The joint deed is to more fully carry out the decree made by the court by which each is to have a third interest in the personal and real property. Thus ends this long and expensive litigation, which to some extent has retarded Col. Donahue in carrying out his railroad projects in this and contiguous counties.

An Ill-Mated Couple.

Geo. A. Batchelder, formerly of this place, has commenced an action for divorce from his wife, Mary Beir Batchelder, in one of the courts of San Francisco. The parties have been married less than nine months. No sooner was the honeymoon over than their domestic troubles commenced. The ill-mated couple were married on short acquaintance, having met but a few times before embarking on the sea of matrimony. Little heedling the cry of "breakers ahead" as laid down in the old adage which says: "Marry in haste and repent at leisure."

Young Men's Institute.

The Young Men's Institute of Sonoma, one of our most flourishing societies, has leased the upper part of the Cleve building on Broadway and will fit it up for a library and reading room. The partitions will be removed and one half of the floor will be converted into one large room, which will be kept open every day in the week for the use of its members. The new quarters of the Institute will be ready for occupancy December 7th.

Remanded.

Louis Bazoni, convicted of wife-beating and sentenced to 90 days in the County Jail by Judge Small, attempted to regain his liberty by suing out a writ of habeas corpus in the Superior Court at Santa Rosa, last Wednesday. The writ alleged that the defendant had not committed a public offense. Judge Rutledge, who decided the question, did not take the same view of the case as Bazoni's lawyer, and sustained the judgment of Justice Small by remanding the prisoner back to jail.

Recognition of Valuable Services.

The following resolution was unanimously adopted by the Mechanics' Fair Committee, 1887, at their last meeting held at the Agua Caliente:

Resolved, That the thanks of the Mechanics' Fair Committee are hereby extended to all persons who contributed towards the success of the Sonoma Valley Exhibit, either by contributions of exhibits, money or labor.

Resolved, Further that a copy of this resolution be furnished the SONOMA INDEX-TRIBUNE for publication.

Personal and Social.

A. L. Tupper and wife of Santa Rosa were in Sonoma Sunday.

Miss M. Ottel is up from the city on a short visit to the Misses Ehrlich.

Marshall J. J. Lowery and Deputy Sheriff Breitenbach of Santa Rosa were in town Sunday.

Miss Dora Howe, daughter of Hon. Robt. Howe of Eden Dale, is home on a short vacation.

Mr. and Mrs. T. B. Wilson, of Cloverdale are visiting the family of Mr. W. P. Wilson of this place. They will return home in a few days.

George Breitenbach of Napa was in town last Thursday. He observed Thanksgiving day at his old home in this place and returned to Napa yesterday.

Mr. A. F. Haraszthy, who has been confined to his home for several weeks with a severe attack of rheumatism, was pleased to state is able to be up and around.

Dr. H. H. Davis and wife returned from the city last Thursday evening and will move into their new residence on Broadway as soon as finished.

Agua Caliente Items.

Negotiations are pending for the sale of a number of villa sites at Agua Caliente, and it is said that several fine summer residences will be built before the coming season. The turkey shooting at Frank Weiler's on Thanksgiving day was a success, though somewhat one-sided, as the Glen Ellen boys, owing to their superior "shooting," walked away with most of the feathered prizes.

The Board of Road Examiners appointed by the Supervisors to survey and view a site for a cross-road and bridge at a point midway between Sonoma and Glen Ellen, have unanimously reported that such road and bridge is a public necessity and have selected Agua Caliente as the most suitable place for this much-needed highway.

The superintendent and civil engineer of the Sonoma Valley Railroad visited Agua Caliente yesterday and made the survey for a public shipping station and passenger depot. The Santa Rosa and Carquinez Railroad Company have also located a public station at Morris Bros. ranch, on the line of the new cross-road and about a quarter of a mile from Agua Caliente Station.

H. C. Manuel has nearly 50,000 barrel blocks ready for shipment from the Agua Caliente quarries. He will add a large number to his force of workmen as soon as the station and switch is completed, so that he can ship the blocks already on hand. The rock is of the best quality and is easily worked and it is believed that these quarries when fully opened up and developed will prove as extensive and valuable as any of their kind on this coast.

Railroad News.

In conversation with Col. M. L. McDonald, Local Director of the Santa Rosa and Carquinez Railroad, our reporter was furnished the following interesting information bearing on the progress of the new railroad: A part of the construction which has been a work of considerable magnitude, the pile driving over the marshes contiguous to Napa river, will be completed by next Monday or Tuesday, and trains will be permitted to cross over the bridge, which has been completed for some time, and bring materials to this side of the creek. An extensive filling will then be required which can be quickly dispatched by the construction train, bearing the material from across the river. The bridge for Sonoma Creek is already constructed at the Oakland Iron Works and will be placed in position in a few days or as soon as the track is laid to that point. The track laying will proceed at the rate of over a mile a day and will reach this city within a short time after the grading is completed. The graders are still at work in the long cut near Glen Ellen, and it will require from a week to ten days to complete it. The construction from that point, except at the entrance of Los Guiliches grant, is not difficult and without the interference of a severe storm or circumstances beyond control, the grading will be completed to this city within one week after the first of the new year. Santa Rosa Republic.

Petaluma Pickings.

[Courier.]

Fred Hess landed the largest salmon trout of the season one day last week at the San Antonio creek railroad bridge. It weighed four pounds and was caught on bologna sausage bait.

Duck shooting is now very good in the Petaluma marsh and good bags are made daily. Al Smith, as usual, leads among the amateur sportsmen and never fails to secure the largest number.

Laurentz, the Portuguese arrested last week for stealing from the Petaluma Fruit Dryer where he had been employed, and from other parties outside, when arraigned before Justice Whallon plead guilty and was sentenced to 120 days in the County Jail. Marshal Blume and Officer Robinson worked up the case.

It is estimated that there are about one hundred Portuguese families living in Petaluma township and they are generally farmers on a few acres and prosperous. They are a quiet, industrious law-abiding people. That they are prosperous and happy the following marriages in the last two weeks will show. They are all good Catholics and were married by Rev. Father Cleary: John Perry to Mrs. Silvey; John Freitas to Mrs. Vierra; Domingos Perry to Miss Mary Silvey; Antonio Abraya to Miss Mary Galinda and Joseph S. Michado and Miss Mary Peters.

The advantages of a reliable, safe and efficacious Family Medicine is incalculable, and when found, the blessing is thus happily expressed. I exclaimed, "Eureka." I have been using Simmons Liver Regulator myself some five years or more, and my family also, and can testify from experience to its virtues. I never recommend a medicine unless I know it to be good. In a ministry of twenty-five years I have often felt the need of such a medicine and when I found it I exclaimed, "Eureka."—Rev. J. P. Harza, Proprietor of the "Christian Visitor," Smithfield, N. C.

Glen Ellen Gossip.

The deputy roadmaster was up Monday looking at our bridge, which is sadly in need of repairs. Jim Law and Peter Woeg, who were out gunning last Sunday, killed (we mean saw) four fine deer.

The many friends in this vicinity of Mrs. B. Muller were pained to hear of her death which occurred in San Francisco last week.

About one hundred men are now working on the Santa Rosa and Carquinez Railroad, and the number is continually increasing.

A change in the Postmaster of this place is about to be made, and in consequence several petitions are in circulation.

L. Breitenbach, in company with Marshal Lowery of Santa Rosa, were down last Sunday. They were after some one, but do not think it was OLD TIMER.

S. L. Dolson, chief engineer of the San Francisco and North Pacific Railroad, was in town several days this week on business connected with his company.

The worst feature about catarrh is its dangerous tendency to consumption. Hood's Sarsaparilla cures catarrh by purifying the blood.

The Western Settler's Chosen Specific.

With every advance of civilization, into the far west, a new demand is created for Hostetter's Stomach Bitters. Newly settled regions are frequently less salubrious than older settled localities, on account of the miasma which rises from recently cleared land, particularly along the banks of rivers that are subject to freshets. The agricultural or mining emigrant soon learns, when he does not already know, that the Bitters afford the only safe protection against malaria, and those disorders of the stomach, liver and bowels, to which climate changes, exposure, and unaccustomed or unhealthy water or diet subject him. Consequently, he places an estimate upon this great household specific and preventive commensurate with its intrinsic merits, and is careful to keep on hand a restorative and promoter of health so implicitly to be relied upon in time of need.
